Flora

Clean terracotta and natural stone floors with a concentrated neutral cleaner that removes dirt, protects wax treatments and leaves no dull streaks.

Technical data:

- Physical state: blue liquid
- Specific gravity (g/cm3): 1
- pH: 7-8
- Flame point (ASTM): > 90°C
- Solubility in water: soluble in water

Description:

Concentrated neutral floor cleaner for the routine cleaning of wax-treated and untreated terracotta, natural stone and cement-based agglomerate floors. Effectively cleans and degreases without damaging the surface or leaving dull streaks.

Fields of application:

Suitable for the routine cleaning of:

- treated and untreated terracotta floors;
- natural stone;
- cement-based agglomerates;
- wax-treated surfaces.

Characteristics:

FLORA is a concentrated neutral cleaner specifically developed for the routine cleaning of terracotta, natural stone and cement-based agglomerate floors, whether wax-treated or untreated. In particular, it:

- effectively cleans and degreases without damaging stone surfaces or wax treatments;
- is ideal for the routine maintenance of terracotta, natural stone and cement-based agglomerate floors and surfaces;
- cleans without leaving dull streaks and leaves a pleasant lavender fragrance;
- features a low-foam formula suitable for use with scrubber dryers.

Instructions for use:

Daily cleaning

- Dilute 10–20 ml of FLORA in 5 litres of water.
- Apply the solution with a soft microfibre cloth as you would with a regular floor cleaner.
- At this dilution, FLORA is also suitable for use with scrubber dryers.

Routine cleaning

- Dilute 30–50 ml of FLORA in 5 litres of water.
- Apply the solution with a soft microfibre cloth as you would with a regular floor cleaner.

Intensive cleaning

- Dilute 250–500 ml of FLORA in 1 litre of water.
- Recommended for deep degreasing of untreated floors and for removing the build-up of dirty or deteriorated maintenance wax from treated floors.
- Apply the solution with a soft microfibre cloth.
- Leave it to work for a few minutes.
- Scrub the surface with a red buffer pad or a red disc.
- Rinse thoroughly with clean water.

Yield:

Coverage is approximate and depends on the absorbency of the surface, the level of soiling and the selected dilution.

- Daily cleaning: up to 2,000–4,000 m² with 1 litre of product.
- Routine cleaning: up to 800–1,500 m² with 1 litre of product.
- Intensive cleaning: approximately 50–100 m² with 1 litre of product.

Precautions:

None.

Warnings:

WARNING: ATTENTION
Hazard statement: Causes severe eye irritation.
Precautionary statements: Protect the eyes / face. - If eye irritation persists, consult a doctor.
Ingredients compliant with Regulation (EC) No. 648/2004:
Cationic surfactants < 1% and nonionic surfactants less than 5%, perfume (Coumarin, Cineole, (R)-p-Mentha-1,8-diene) .

Notes:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products. Rev5-Ver260122

Storage:

Keep the product tightly closed at temperatures between 0ºC and +30ºC and not exposed to sunlight for a long time. The stored product has a useful life of 2 years.

Packaging:

- 1 L PE bottle – boxes of 6.
- 5 L PE container – boxes of 4.
- 10 L PE container.
