Vetronet

Streak-free glass cleaner for cleaning glass and mirrors and shiny surface cleaning, fast drying, no rinse, leaves surfaces bright and residue-free.

Technical data:

- Physical state: pink liquid
- Specific gravity (g/cm³): 1,00
- pH (20°C) of the pure product: 7
- Flame point (ASTM): non-flammable
- Solubility in water: soluble in water
- Odour: characteristic

Description:

Cleaner for the daily cleaning of glass, mirrors and shiny surfaces. Also ideal for polished marble, ceramics, stainless steel, plastic laminates and enamelled surfaces. Cleans without streaks, dries quickly and requires no rinsing.

Fields of application:

Recommended for daily cleaning of:

- glass and mirrors
- polished marble and terrazzo
- glossy ceramic tiles
- stainless steel
- plastic laminates and enamelled surfaces

Characteristics:

VETRONET is a cleaner for the daily cleaning of glass, mirrors and shiny surfaces. In particular:

- effectively cleans surfaces, leaving them bright and streak-free;
- dries quickly without the need for rinsing;
- is low-foaming and easy to use;
- is suitable for glass, mirrors, polished marble and glossy ceramic tiles;
- can also be used on stainless steel, plastic laminates and enamelled surfaces, including delicate materials such as polished marble and terrazzo.

Instructions for use:

Ready-to-use product. Apply on compatible surfaces.

- Spray the product directly onto the surface to be cleaned.
- Spread evenly with a soft cloth.
- Remove dirt and assist drying with a dry cloth.

Yield:

Product coverage depends on the level of dirt, the amount applied and the method of use on the surface. With a 750 ml bottle, the approximate coverage is:

- Routine cleaning of glass and shiny surfaces Under regular maintenance conditions, one bottle covers approximately 50–60 m², with even application and residue-free drying.
- Cleaning surfaces with moderate dirt In the presence of fingerprints, dust and frequent residues, 750 ml covers approximately 40–50 m², depending on the amount of product used.
- Cleaning mirrors and vertical surfaces For surfaces such as mirrors and vertical glass, one bottle allows multiple cleaning applications, depending on the size of the treated areas.
- Heavier dirt In case of more visible residues or surface build-up, a higher amount of product may be required, resulting in reduced overall coverage.

Regular maintenance use helps optimise product coverage and keeps surfaces cleaner and brighter over time.

Precautions:

- None.

Warnings:

Hazard statements: Safety data sheet available on request.

Ingredients in accordance with Regulation (EC) No 648/2004:

Non-ionic surfactants less than 5 %, Preservatives (1,2-benzisothiazol-3(2H)-one, sodium pyrithione), Perfume

Notes:

Our indications are based on the current knowledge of the research and are intended to give the best guidance to the buyer-user. However, such indications require preliminary examination and testing of the fields of use, the types of materials present and the various conditions of application. The user decides independently on the suitability and the field of use. MARBEC Srl assumes no responsibility for the incorrect use of its products. Rev7-Ver24082023

Storage:

Keep the product tightly closed at temperatures between 0 °C and +30 °C and not exposed to sunlight for a long time. The stored product has a useful life of 2 years.

Packaging:

- 750 ml spray bottle in PE – boxes of 6 units
- 5 litre canister in PE – boxes of 4 units
