PULIPIATTI

Concentrated hand dishwashing liquid detergent. Removes grease and food residues even in cold water. Easy to rinse, no streaks, lemon

Technical data:

- Physical state: clear viscous liquid.
- Color: green.
- Specific gravity (g/cm³): 1.025
- pH (20°C) of the pure product: 7.8
- Flash point (ASTM): non-flammable.
- Water solubility: soluble.
- Odor: pleasant (lemon).

Description:

Concentrated cleaning solution for manual dishwashing with a delicate lemon essence. It effectively cleans and degreases even in cold water, removing food residues and stubborn dirt. It rinses off without streaks and leaves a pleasant lemon fragrance.

Fields of application:

Suitable for manual dishwashing of:

- plates and tableware in general
- cookware
- surfaces made of metal, ceramic, glass, and plastic

Characteristics:

PULIPIATTI is a concentrated detergent for manual dishwashing, developed to ensure high cleaning performance even at low temperatures. In particular:

- effectively cleans and degreases plates, tableware, and cookware, removing food residues and stubborn dirt;
- works efficiently even in cold water, making everyday manual dishwashing easier;
- produces a compact and stable foam that enhances cleaning action;
- rinses off easily without leaving streaks on surfaces;
- leaves dishes perfectly clean and shiny with a pleasant lemon fragrance.

Instructions for use:

Concentrated product to be used diluted in water.

During use, wearing protective gloves is recommended to reduce direct contact with the skin.

- Pour 2–4 ml of PULIPIATTI per 2 liters of water, depending on the level of dirt on the dishes.
- Immerse plates, tableware, or cookware in the cleaning solution.
- Wash by hand using a sponge or the most suitable cleaning tool.
- Rinse thoroughly with clean water.

In case of particularly greasy or dried-on dirt, increase the dosage or extend the contact time before rinsing.

Yield:

The yield of the product depends on the level of dirt on the dishes, the dilution ratio, and the amount of water used during washing.

With a 1-liter bottle, it is possible to obtain approximately:

- Everyday dishwashing
- For lightly greasy dishes and daily-used tableware, using 2 ml of product per 2 liters of water, one bottle provides about 500–550 standard washes.
- Dishwashing with medium dirt
- For greasier food residues, pots, and dishes used for regular cooking, with an average dosage of 3 ml per 2 liters of water, 1 liter provides about 330–400 washes.
- Dishwashing with heavy or stuck-on dirt
- For pots, pans, and utensils with more stubborn food residues, using 4 ml per 2 liters of water, one bottle provides about 250–300 washes.
- Particularly stubborn dirt
- In case of dried-on food residues or very greasy deposits, it may be necessary to slightly increase the dosage or extend the contact time, resulting in a reduced number of washes.

Correct and consistent use of the product, with dosages adjusted to the level of dirt, helps optimize overall yield and maintain high cleaning performance over time.

Precautions:

Wear rubber gloves to protect the skin of the hands.

Warnings:

WARNINGS: DANGER Hazard statement: Causes serious eye damage. - Causes skin irritation. - Contains: CITRAL, BENZYL ALCOHOL. May produce an allergic reaction. **Precautionary statements:** Keep out of reach of children. - If medical advice is needed, have product container or label at hand. - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. - Wear protective gloves/protective clothing/eye protection/face protection/hearing protection/... - Immediately call a POISON CENTER/doctor/ ... - Wash ... thoroughly after handling. - **Contains:** Dodecylbenzenesulfonic acid, C10–C13 alkyl derivatives, sodium salts. - Alcohols, C12–14, ethoxylated, sulfates, sodium salts **Ingredients** compliant with Regulation (EC) No. 648/2004: Surfactants between 5% and 15%. **Fragrance:** Citral. **Preservatives:** Sodium Benzoate.
