KIT CUCINA

Complete kitchen cleaning kit for grease, limescale and oven buildup.
Professional detergents and accessories for daily and deep kitchen cleaning.

Technical data:

For detailed technical data on each detergent and accessory included in the kit, please refer to the respective technical data sheets of the individual products.

Description:

Detergent kit for complete kitchen cleaning, designed to tackle grease, limescale and encrustations. Suitable for removing food residues, baked-on grease and mineral deposits, as well as for routine maintenance of kitchen surfaces.

Fields of application:

Suitable for daily and deep cleaning of kitchen surfaces exposed to grease, food residues, limescale and encrustations, such as:

- dishes, tableware and cookware
- worktops and food-contact surfaces
- burners and hobs
- traditional kitchen ovens
- barbecues and grills
- racks, baking trays and oven dishes
- stainless steel surfaces
- glass and compatible washable surfaces

Do not use strong alkaline detergents on:

- microwave ovens
- countertop mini ovens
- unpainted or uncoated aluminium surfaces

Do not use limescale removers on:

- marble
- travertine
- slate
- materials not resistant to acidic substances

Characteristics:

The KITCHEN KIT is a cleaning system specifically designed for the effective treatment of kitchen surfaces exposed to grease, food residues, limescale and carbonised build-up. The combined action of its products allows you to manage both daily cleaning and intensive maintenance progressively, adapting the intervention to the type and level of dirt present.

In particular:

- PULIPIATTI ensures high performance in manual dishwashing, removing food residues and dirt even in cold water while allowing easy rinsing;
- PULI ECO delivers multi-purpose degreasing action on kitchen and food-contact surfaces, helping remove dirt and odours without leaving residues after rinsing;
- SANI-KAL BIO acts on light limescale deposits and soap residues, leaving surfaces clean and bright on acid-resistant materials;
- PULIFUMO® breaks down and removes carbon residues, grease, soot and smoke stains during routine cleaning of surfaces exposed to high temperatures;
- PULIFORNO® works deeply on black crusts, baked-on grease and stubborn encrustations, facilitating removal during intensive cleaning operations;
- EASYCLEAN accessories support the detergent action with calibrated mechanical intervention according to the surface, improving overall treatment effectiveness and the final finish.

Instructions for use:

Use the products included in the KITCHEN KIT according to the surface and the type of dirt:

- For dishes and cookware: dilute PULIPIATTI in water and rinse thoroughly.
- For food-contact surfaces: apply PULI ECO, then wipe and rinse.
- For light limescale deposits: use SANI-KAL BIO, leave it to act, then rinse.
- For ovens and grills with routine dirt: apply PULIFUMO®, then scrub and rinse.
- For carbonised encrustations: use PULIFORNO®, leave it to act and remove residues.
- Use the most suitable EASYCLEAN accessories according to the surface and finish with EASYCLEAN PUR.340.

N.B. For detailed application methods, contact times and compatible surfaces, refer to the technical data sheets of each individual product.

Yield:

For detailed information on indicative coverage, number of achievable treatments and conditions of use, please refer to the technical data sheets of the individual products included in the kit.

Precautions:

During use of the products included in the KITCHEN KIT, it is recommended to wear protective gloves and avoid direct contact with skin and eyes.

Do not use strong alkaline detergents on:

- microwave ovens
- countertop mini ovens
- unpainted or uncoated aluminium surfaces

Do not use limescale removers on:

- marble
- travertine
- slate
- materials not resistant to acidic substances
